The core design of a frog - but with all advantages of a headless design: less weight, no neck dive, smaller dimensions for the travelling musician, minimization of dead spots and more... of course with all the sonic features of a modern instrument.

THIS ONE WILL MAKE YOUR HEAD SPIN!

Elwood L € 1,190.00

The Elwood L is a real lightweight. The well thought design makes it a back-friendly work tool of the first class, especially designed for longer live gigs. The alder body is refined with selected flamed maple, walnut or amazaque tops.

The headstock was so revisited that it manages to save weight and work without string tree.
